Hi,

The main signal from this week's Groww review pulse is that users are experiencing significant pain points with KYC/onboarding, withdrawals, and payments/refunds.

The biggest user pain point is the consistent issues with the KYC process, including document upload failures and verification problems, which are causing frustration and delays.

This week, our recommended focus should be on improving the document upload process and enhancing the verification process to reduce failures and waiting time.

Here is the weekly review pulse for Groww:

WEEKLY GROWW PULSE
[2026-06-08 to 2026-06-14]

TOP THEMES

- KYC/Onboarding (6 reviews): Users are facing issues with the KYC process, including document upload failures and verification problems
- Withdrawals (7 reviews): Users are experiencing issues with withdrawals, including delayed or missing payouts
- Payments/Refunds (5 reviews): Users are facing issues with payments and refunds, including failed transactions and missing refunds

QUOTES

1. "Document upload reached 100 percent and then failed three times"
2. "PAN verification passes but address verification fails every time"
3. "Scheduled video KYC, waited 1 hour, no one showed up"
4. "Redemption completed in the app but payout is still pending"
5. "Tried to withdraw from liquid fund and app only says request failed"
6. "Requested Rs.50,000 withdrawal. Money not credited. No proper update in app"
7. "UPI payment successful but fund order failed. No refund yet"
8. "Amount got debited for a fund order but there is no allotment and no refund update"
9. "I started sip and then cancel it with profit of 9 percent . I also applied for refund . but no refund occur even after a week"

ACTION IDEAS

1. Improve the document upload process to reduce failures
2. Enhance the verification process to reduce waiting time
3. Provide clear instructions for the KYC process
4. Improve the withdrawal process to reduce delays
5. Provide clear updates on the status of withdrawals
6. Enhance the customer support for withdrawal-related issues
7. Improve the payment process to reduce failures
8. Enhance the refund process to reduce delays
9. Provide clear updates on the status of refunds
